REWRITING THE RULES OF ENDPOINT SECURITY

ZeroTouch + SecureVision poweredby Cyber Crucible = Prevention Without the Noise

Control your devices. Block threats before they begin. Cut costs.

THE PROBLEM

Security tools are bloated, noisy, and reactive and security teams are drowning in alerts, tool sprawl, and detection loops that never end.

PREVENTION = ZERO IMPACT TO THE BUSINESS

A prevention-first model where threats are stopped before they disrupt business.

ENABLED BY

ZeroTouch
Unified platform for device control, visibility, and management

SecureVision
Securement's real-time, autonomous protection service for Windows - *powered by Cyber Crucible*

OUTCOMES

- Block threats at the kernel level
- Eliminate alert triage and signal fatigue
- Replace legacy agents and reduce security stack complexity

HOW IT WORKS

FROM DEPLOYMENT TO ROI (FIRE'M)

F	I	R	E	M
Deploy SecureVision *powered by Cyber Crucible*	Investigate and close high-value gaps	Respond to real issues	Evaluate performance and streamline tools	Measure what matters: prevention & resilience

OPERATIONAL SHIFT

XDR VS. ZIP MODEL

Automate Tier 1/2 SOC Roles
Focus Your Talent Where It Matters

BEFORE
XDR SOC

- Chasing alerts
- Multiple agents & dashboards
- Tier 1/2 analysts triaging noise
- Reactive detection loops

AFTER
IP WITH ZEROTOUCH + SECUREVISION
Powered by Cyber Crucible

- Blocking threats automatically
- Unified endpoint management platform
- Engineers optimizing technology and protections
- Autonomous, measurable prevention

COST & RISK REDUCTION

- 66% fewer logs ingested into SIEM
- Consolidate tools into one lightweight platform
- Reduce spend on managed services and redundant agents
- Low-friction deployment and WHQL-certified
- Reinvest in people, identity, and cloud security

66%
Log Reduction

1 Platform vs. Dozens of Tools

COMPLIANCE & FORENSICS

- Audit what was blocked, when, why, and by whom
- Full metadata for traceability, without alert overload
- Deep forensics only if needed — cold storage, not daily chaos
- Measurable compliance posture

STRATEGIC IMPACT

- Align security with business outcomes, not just IT alerts
- Reduce risk, noise, and complexity — all at once
- Free your team to engineer prevention, not chase detection
- Prove ROI with real-world outcomes, not theoretical scores

CREATE LESS NOISE & MORE IMPACT

PREVENT RANSOMWARE, REDUCE RISK & COMPLEXITY, AND GAIN CLARITY

Stop chasing threats. Start measuring prevention.

See how ZeroTouch + SecureVision ***powered by Cyber Crucible*** deliver a leaner, smarter, and stronger security future.
